Brand NEW NASA UNIT! (8 lessons)

Mad Science and NASA have teamed up to bring you the excitement and wonder of space in this new voyage of discovery. See the principles of thrust and propulsion at work in a real rocket launch. Explore the atmosphere on earth and beyond. Watch stardust burn, and journey through a galaxy as you investigate the life cycle of stars. Explore the farthest reaches of our solar system, create a lunar eclipse in the "mad" planetary tour, probe the mysteries of meteors and bounce around satellite light as you learn about space phenomena. Experience the life of an astronaut as you suit up for a space flight and then perform spacecraft repairs. It will be out of this world!

No class on 10/31, 11/7, 11/28

\$120.R.E.D./\$130. Non-R.E.D.

This 8 week clinic is perfect for first time players or other aspiring players. Everyone will improve their game and have fun. Each session combines fundamental skill instruction with organized team competition. Participants will benefit by improving their individual skills such as passing, dribbling, shooting, rebounding, and defense while learning how to work within the framework of a team.

Each session (8 total) begins with a warm-up of stretching and plyometric exercises followed by a group activity designed to promote leadership and team work. Stations drills are next where small groups of players work with a coach on a specific skill. Stations are both fun and promote skill development. There will be competitions such as passing circle, survivor, knockout, and dribble tag. T-shirt included!

***No class on Oct. 29th**

\$125.R.E.D./\$135. Non-R.E.D.
